

Digging Deeper with your Deep Dive in Mathematics

Course Information

Date: 28th September 2022

Venue: Online (Zoom)

Time: 09:15-11:45

Cost: £60

Course Leader: Vanessa Brown

Course Overview:

This session is for those participants who have already attended our 'Preparing for a 'Deep Dive' in Mathematics' event.

This course will continue to support you in developing your subject specific 'eye' and provide the opportunity to evaluate the journey from intent through implementation to impact in your school.

We will dig deeper into your mathematics provision and explore checklists to enable you to action plan more effectively, identify priorities that will have impact in your school. You will have a greater understanding of your mathematics provision and feel more confident to communicate effectively how you engineer success in mathematics in your school.

Course Content:

- Reflect on your outward-facing information about mathematics at your school and its link to intent;
- Consider how to strengthen your approach to book scrutiny to give a picture of what's happening in your school;
- Explore how pupil voice can be collected and used to evidence the impact of mathematical provision in your school;
- Evaluating your action plan.
