

## Spotlight on Year 1 Mathematics

### Course Details

**Date:** 10<sup>th</sup> October 2022

**Venue:** Online (Zoom)

**Time:** 9:15-11:45

**Cost:** £60

**Course Leader:** Vanessa Brown

### Overview of Training:

This Spotlight on Year 1 course will allow delegates to strengthen their subject knowledge and pedagogy of Year 1 mathematics. We will discuss and explore some of the potential gaps that children may have when entering Year 1 and begin to consider how they might be supported to work towards achieving age-related expectations.

This will be a hands-on session so come armed with manipulatives and you may wish to have your scheme of learning to hand, as there will be an opportunity to reflect on your provision.

### Course content:

- Identify key learning in Year 1 and consider strategies to meet end-of-year Ready to Progress (RTP) statements;
- Explore structures and representations to support concepts taught in Year 1;
- Support in exploring barriers which might prevent pupils from achieving age-related expectations;
- Strengthen strategies to support pupils in applying their learning in more challenging problem-solving contexts.
