

Establishing the Foundations in Place Value in Years 1-4

Course Details

Date: 27th June 2022

Venue: Online (Zoom)

Time: 16:00-17:15

Cost: £40

Course Leader: Vanessa Brown

Overview of Training:

Understanding place value allows children to unlock large and small numbers, as well as calculating. So, ensuring that children are secure with place value is paramount to building a firm foundation on which to link other areas of mathematics. The training will explore the key concepts, structures and patterns essential to developing a deep understanding of place value.

This training would be suitable for teachers and TAs in Years 1-4 as well as subject leaders of mathematics.

Course Content:

- to explore the role of manipulatives and models in enabling pupils to visualise structures;
- patterns and relationships for place value;
- a range of approaches enabling pupils to develop mastery of the key ideas and concepts including rich tasks and contexts.

Bookings can be made at www.teachcr.com and further course information is available by contacting enquiries@teachcr.com
