

Creating a 2024-25 Subject Leader Action Plan for Mathematics

Course Information

Date: 12th September 2024

Venue: Online (Zoom)

Time: 16:00-17:15

Cost: £50

Course Leader: Vanessa Brown

Course Overview

This online twilight session will support subject leaders to review their current position in mathematics and to develop an effective action plan for 2024-25.

The session will include a checklist of the key aspects of mathematics that schools should have in place and how effective current provision is.

Course Content:

- What makes an effective Action Plan?
- Key Principles for Action Planning
- 8 key questions to consider for the mathematics subject leader
- Identifying strengths and developmental areas for specific cohorts
- Priorities for 2024-25
- Improving mathematics outcomes for all
- Applying the Education Inspection Framework to the teaching of mathematics
- Examples of Action Plans
